Hongkong Government Gives Each One $1,000

EXECUTE SLAYER

Paper Money In Canton Increases In Value

(Reuter's Pacific Service)

Canton, Sept. 5.—The gradual rise in the value of Canton Government paper money, which reached 75 percent of its face value on August 30, points to the belief that the provisional Civil Governor-elect will fulfil his pledge to improve the local financial condition. The Kwangtung Provincial Assembly will hold another special session to consider measures which may be referred to it by the new Governor after his inauguration on Sept. 4.

The Bureau of Foreign Affairs at Canton has been notified by the local British Consulate-General that the Hongkong Government is remitting $1,000 to the dependents of each of the five victims killed by the Hongkong police during the seamen's strike last March. Leung Wo, a Chinese seaman who murdered Leung Yuk Tong, a stevedore, last march in connection with the strike, was executed for his crime by the Hongkong authorities on August 30.

Reports from Kaochow and Luichow districts received during the last few days state that pro-Sun Yat-sen forces under General Huang Ming-tang had to retreat before General Chen Chiung-ming's troops.

Admiral Sah Chen-ping, on behalf of the Peking Government and other parts of the Chinese Navy, is communicating with the Chinese Fleet now in Canton waters for its early return to the north, assuring the officers that their rank and record of service will not be affected because of their sojourn in Canton and their support of the "Constitutional" cause.

Admiral Tang Ting-kang, now commanding the Chinese Navy in Canton waters, will return with the fleet to the North as soon as the formal announcement of reunification is made, declining any offers to serve under the Provincial Government of Kwangtung. He has been nominated as one of the Associate Director-Generals of the Kwangtung Reconstruction Bureau.

What Kind Of Husbands Do Co-Eds Want?

Frances Warfield and Frances Griffin.

HERE are some of the different kinds of men who would be acceptable to girl students of the University of California Summer School, at Berkeley, for husbands.

Honesty is the virtue that would appeal most to Miss Harriett Williams, of Oakland. "He should be capable of making a good living and should be home loving and cheerful in disposition," she added.

"An ideal husband is one who believes a woman is a better wife and mother when she is his intellectual equal," opined Miss Dorothy Carn, of Oakland. "He must consider his wife his equal in business as well as socially."

"The man I would marry," said Miss Frances Warfield, of Kirkwood, Missouri, "must be tall and a blond. He must be the kind of man a head waiter in a restaurant pays a lot of attention to the minute he enters."

"Carefulness in dress is necessary," according to Miss Frances Griffin, of Salinas, California. "He must be able to support his family and be scrupulous in his dealings with others. Also, he must have a different kind of tie for each suit he wears."

The China Merchants' steamer Irene also assisted in getting the vessel free. The damage to the Hsinming is reported as negligible and the vessel was to sail for Shanghai last night. She was en route from Tientsin to Chefoo when she went aground.

The Hsinchang, also of the China Merchants' company, has had engine trouble in the north and is expected in here today, towed by the company's steamer Hsinfung from Tientsin. The Hsinchang was forced to come to Shanghai for repairs owing to no firm being able to undertake them in Tientsin, it is reported. The Hsinfung is expected to dock early this afternoon.

Judge Lobingier Overrules American Consul's Decision And Orders Hannig Freed

Judgment Handed Down In United States Court Deals With Authority Of Consular Officials

A decision defining the authority of American consular officials with regard to the hearing of criminal charges against Americans in China and containing other points of importance was handed down by Judge Charles S. Lobingier of the United States Court for China yesterday in the case of Mr. Charles W. Hannigs. The decision reversed the ruling of American Consul-General Stuart J. Fuller, of Tientsin, who sentenced Mr. Hannigs to 45 days' imprisonment for assault, with the alternative of his leaving China.

Mr. Hannigs, manager and part owner of the Belmont Hotel in Tientsin, was charged with assaulting Chinese employes before Consul-General Fuller at Tientsin. He was found guilty on two charges, fined and sentenced to 45 days imprisonment, but given the alternative of leaving China to escape imprisonment by the Consul-General.

IS ARRESTED HERE

Mr. Hannigs left Tientsin, going to Manila, but later returned to Shanghai and was arrested here. Mr. H. D. Rodger secured his release by filing writs of habeas corpus and he remained at liberty until the return of Judge Lobingier and the motion by Mr. Rodger although he was technically under arrest as he could not return to Tientsin without being thrown into jail.

Mr. Rodger in his motion contended that Consul-General Fuller had exceeded his authority in ever trying the case as it should have been tried in the United States Court for China and asked that the sentence imposed on Mr. Hannigs be declared void.

Judge Lobingier in his decision held that the Consul-General had exceeded his authority as the maximum penalty in such cases was greater than Consular courts have the right of imposing and that the sentence was therefore void.

Speaking of the alternative sentence of leaving China Judge Lobingier ruled that it was an alternative sentence of banishment and that there was nothing in American law providing for banishment, and it was in conflict with the spirit of American institutions.

Mr. Hannigs has been forced to stay away from Tientsin for eight months during which time the Belmont Hotel has been involved in considerable difficulty. Following the decision today he announced he would return to Tientsin as soon as he settled his affairs in Shanghai.

Judge Lobingier's decision in the case follows:

DECISION IN FULL

This is an application for a writ of *habeas corpus* by one who is in the custody of the United States Court for China. The petition contains the following averments:

"That the said Chas. W. Hannigs is detained and restrained of his liberty by order of Stuart J. Fuller, United States Consul General for the Consular District of Tientsin, China, in an action entitled United States of America vs. Chas. W. Hannigs, wherein the said, Chas. W. Hannigs is charged with a crime of assault. A copy of the said proceedings and of the Order of the said Stuart J. Fuller are attached hereto and made a part of this petition;

That the said detention and restraint is illegal and that the illegality thereof consist in this, to wit: That under and by virtue of an Act of Congress of June 30, 1906, (c3934 2,.34 State. 814) entitled 'Consuls to China to exercise limited Jurisdiction, etc.' wherein it provides 'Consuls of the United States of America in the cities of China to which they are respectfully accredited shall have the same jurisdiction as they now possess in civil cases where the sum or value of the property involved in the controversy does not exceed Five Hundred Dollars United States money, and in criminal cases where the punishment for the offense charged cannot exceed by law one hundred Dollars fine, or sixty days' imprisonment, or both, . . .';

That under and by virtue of the Laws of the United States of America, Extraterritorial Jurisdiction, China, the offense of assault may be punished by a fine of $500 U. S. Money or imprisonment for a term of 6 months' or both, (Section 1905 Compiled Laws of Alaska); that, therefore, the said Stuart J. Fuller had no jurisdiction to hear or try the said charge against the said Chas. W. Hannigs of the crime of assault, and had no jurisdiction to make the order herein complained of."

This petition is supported by a brief which repeats the above and in which it is further contended:

"That in the Criminal Action No. 22 filed on January 12,

Tokio Newspapers Blame Russians For Conference Deadlock

(Eastern News Agency)

Tokio, Sept. 8.—With reference to the standstill to which the Changchun conference has been brought owing to the opposition on the part of the Russian delegates to Japan's proposal to conduct negotiations on the basis of the agenda of the Dairen conference, the press here points out that it is Russia's stereotyped measure to take people by surprise at the opening of a conference just as the Russian delegates did at the Genoa and the Hague Conferences.

At the same time the newspapers take the view that the Russian delegates may perhaps withdraw their opposition and agree to the continuance of the Changchun conference after obtaining instructions from their home Governments.

Naturalising Bustards Is Regular Man-Size Job

By Elsie McCormick

Trying to make a naturalised American citizen out of a Chinese bustard is about as easy as it is to make one out of an avowed Bolshevik. Unbelievers are requested to step up in line and hear the opinions of Mr. A. J. Park, who recently returned from Manchuria with the only live bustards in captivity.

At first we thought the bustard was a special kind of Chinese official, but Mr. Park assures us that it is the most original and contrariest piece of ornithology that ever made raids on the Chinese grass-hopper crop.

For instance, the bustard has a breast like a goose and a back like a turkey, and is said by some authorities to be related to the ostrich.

Like the contrary bird it is, the bustard has the dark meat on its chest and the white meat on its legs. It is always a success at a dinner-party, but it doesn't taste like any other bird on the menu of civilisation.

IT'S A HIGH FLYER

It is a tremendously high flyer, yet the absence of a back claw makes it impossible for the bird to light on a tree. It nests ignominiously on the ground, without even taking the trouble to build any pretense of a residence.

The bustard cries like a baby, and yet, when aroused, can put up a fight worth placing in an arena. By flapping its eight-foot spread of wings, a grown bustard can knock a man down as easily as it can voice its regrets.

Though well-equipped for long distance flying, the contrary bird elects to spend the long, cold winter on the snow-covered plains of Manchuria, picking itinerant worms out of the drifts and keeping an eye open for the ice-bound grass-hopper.

Unlike birds not barred by a missing toe from the tree-tops, the bustard must make a running start along the ground before a flight, just like an airplane.

CONSIDERABLE OPTICS

The fact that the bustard can see objects from two to three miles away and can make an excellent pugilistic showing even if someone does succeed in sneaking up on him made Mr. Park's venture something that did not at all resemble a Sunday-school picnic. Furthermore, "the bird wizard," as he is called in America, found that nobody seemed to know the bustard's home address and likewise that the contrary creature had ever lived more than ten days in captivity. Mr. Park was told by a dealer in Harbin that he could get live specimens provided he was willing to accept them with broken heads.

As the naturalist is interested in securing birds to ship to the State Game Farms and eventually to set free for American sportsmen, broken heads did not seem to him an especially valuable asset. Therefore, accompanied by Cupid, a midget English setter weighing only sixteen pounds, Mr. Park started out over the plains of Manchuria to do the bagging himself.

CUPID REBELS

His procedure was to sight a bustard in its flight away from the nest to a morning of marketing or an afternoon of mah-jongg, then find the nest with the assistance of Cupid, and take the long-legged progeny off on the first step of the journey toward America. When he discovered that the baby bustards were meant for adoption and not for slaughter, Cupid decided that hunting them was unsportsmanlike and therefore refused to have anything further to do with the proceedings. Mr. Park after that had to play bird-dog himself.

The most obnoxious birds to deal with in Manchuria, Mr. Park says, are those without feathers. It was on account of

TURKS REACH SEA; HEAD OF GREEK ARMIES IS CAPTURED

Victors Now On Way To Smyrna, Paris Hears

GOVERNMENT OUT

General Tricoupis And Staff Surprised By Cavalry

(Reuter's Service)

The Greek Government has resigned.

Paris, Sept. 8.—A sensational list of Turkish capturs is given in a telegram from Adana stating that the Kemalists have reached the Aegean, presumably south of Smyrna, and are approaching Smyrna and marching on Manissa. They have so far captured 700 guns, 11 aeroplanes and 2,000 machine-guns.

Athens, Sept. 8.—An official communique admits that General Tricoupis and General Digenis and four Colonels have been taken prisoners.

General Polimenakos has been appointed Commander-in-Chief.

Measures for the reconstruction of the Army include the merging of four divisions of the First Army Corps with four divisions of the Second.

Reports from Adana detailing the capture of General Tricoupis show that the latter, accompanied by his whole staff, unaware of the approach of the Turks, was calmly planning when a sentry dashed in and reported that the Kemalist cavalry had arrived. The whole of the staff was thus trapped.

Athens, September 8.—It is stated that the order for the evacuation of Asia Minor has not yet been given. The Chief of Staff is studying the problem of effecting the evacuation under the best conditions.

The reported departure of King Constantine from Athens is untrue.

The representatives of the Allies called on the Foreign Minister this morning and recommended the adoption of measures to prevent disorders on the part of the Greek Army in Smyrna which were liable to produce Kemalist reprisals.

Paris, Sept. 7.—King Constantine is reported to have left Athens today for an unknown destination.

Constantinople, Sept. 7.—A message from Angora states that General Tricoupis, the new Greek Generalissimo, and several other Greek Generals were captured on September 2 and taken to the Kemalist headquarters where they are being treated as guests of Mustapha Kemal.

The Nationalist forces have reached Salichli. A corps of Turkish cavalry 20,000 strong after the capture of Eudemiche proceeded in the direction of Smyrna where they are expected to arrive in a few days.

Smyrna, Sept. 7.—The Greeks are making efforts to organise a defence of Smyrna. The towns of Cassabra and Magnesia are reported to be in flames. British marines are guarding the gas works and the National Bank of Turkey here.

The British Admiral, Vice-Admiral Sir Osmond Brock, has made a statement to the effect that all measures possible will be taken to safeguard Smyrna.

The situation is becoming critical. Several British families have left. Vice-Admiral Brock has put a number of merchant ships at the disposal of British subjects and has posted destroyers to cover their embarkation.

The French and Italian authorities, besides landing marines, to protect their nationals, have called all their male citizens to serve as a volunteer force.

Greek troops with Venizelist officers have arrived from Thrace, consequently, it is hoped that the Turkish advance will be resisted.

The remainder of the French fleet is expected tonight. Serious trouble is feared if relief measures for refugees are not taken.

London, Sept. 7.—There are decided indications that the Greeks are preparing to make a stand outside Smyrna.

Italy has sent a note suggesting that the Venice Conference be held as soon as possible after September 15.

Constantinople, Sept. 7.—The Greeks have evacuated several districts on the Asiatic shore of the Dardenelles. A detachment of

Turkish gendarmerie is being sent to maintain order.

The Allies have informed the Athens Government that Greece is prepared to evacuate Asia Minor on condition that an armistice is immediately concluded.

British Attacked By Turkish Forces

(Reuter's Service)

London, Sept. 7.—A serious casualty roll of 67 occurred in a British force in an encounter in Iraq arising from a Turkish inroad.

Two hundred irregulars, who were for some time in the Kurdish hills, moved down to Rania where they were joined by neighbouring Kurds. They sharply engaged on August 31, a small column of Kurdish and Assyrian levies, supported by a company of the 15th Sikhs and an Indian pack-battery. The Indians behaved with the utmost gallantry.

The decision to withdraw to a position at Koy Sanjak was effectively carried out and covered by the Royal Air Force.

Two British officers and one Indian officer were wounded. The casualties among the Indians were 14 killed, 11 wounded and 7 missing and among the levies 13 killed and 19 wounded.

The situation in all the other provinces of Iraq is satisfactory.

(Later)—The British withdrawal from the difficult hill country in the course of the encounter with Turkish irregulars in Iraq was due to the very bad behavior of the Kurdish levies.

In consequence of the disturbed state of the neighboring districts owing to the Turkish incursion, the Royal Air Force safely collected 87 British officials and their families over a wide area in the Sulaimanyeh district during a single day.

Reparations Delay Peeves Belgians

(Reuter's Service)

Berlin, September 8.—The Belgian Reparations delegates are disappointed at the tardiness with which the negotiations are progressing. FINANCIAL WORRY CAUSES SUICIDE OF CHINESE GIRL

Zia Tsang Tsz Hangs Self In Office Of Shanghai Journal Of Commerce

Zia Tsang-tsz, an unmarried Chinese young woman who has been employed as typist and mailing clerk in the office of the Shanghai Journal of Commerce for the past two years, remained at her desk yesterday afternoon after the others in the office had left and after locking herself in a small private room hanged herself.

The tragedy was discovered about 7 o'clock in the evening by a coolie who in cleaning the offices unlocked the door of the room in which the girl died. She had used an ordinary piece of cord, fastening it about her neck in a slip knot. Standing on a chair then she had tied the end of the cord to a hook near a window and had stepped off of the chair.

Investigation by the Municipal Police last night disclosed that the young woman's action had been caused by financial worries, as it was found that she had borrowed considerable sums, which it was thought she had lost in unwise investments, and was unable to meet obligations for which she was being pressed.

The young woman's parents residing in the Chinese City were notified and the body was sent to the mortuary.

KWANTUNG'S NEW GOVERNOR SEES BIG OPPORTUNITY

Hopes To Cement Ties Between China And Japan

(Eastern News Agency)

Tokio, Sept. 8.—The installation ceremony of Baron Ishuin, newly appointed Governor General of Kwantung, took place today at 11 a.m. in the Kasumigaseki Detached Palace.

Interviewed by a representative of the Eastern News Agency, Baron Ishuin made the following statement:

"Now that I have received an Imperial command to officiate as the Governor General of Kwantung, I have resolved to attend to my duties with all my heart. Especially with regard to the relations between Japan and China I have a sincere desire to do my utmost towards the furtherance of the friendship of the two neighboring countries.

"The fact that there has been in the past something of alienation in the feelings of the peoples of the two countries is a thing most deplorable for both. The welfare and happiness of these two countries is dependent upon the cooperation and mutual understanding on the part of the two peoples. To this end, it is most essential for them fully to understand their mutual stand-points and to respect their mutual feelings. Mancnuria, in particular, having vital relations with the two countries, the Japanese and Chinese residents there should enjoy mutual intimacy.

"Such being the case, I have a firm determination to devote my best efforts to bring this about. Fortunately, as I have had a close relation with China, having a large circle of friends and acquaintances among the Chinese people and among the Japanese who are interested in China, I feel convinced that I may be able to accomplish my desires without much difficulty. As for the relations between the two countries, should there be any fault on our part I shall not be slow to correct our wrongs, and if I should perceive any fault on their part, I intend to express my views without reserve so that they may correct their errors.

"With regard to the internal administration of Kwantung, I have not yet fully ascertained the actual condition there, but I have a mind to decide upon my policy on the basis of fair-play after making a thorough investigation into the true state of affairs with a view to the furtherance of prosperity and well-being of all residents within the domain of Kwantung."

FOR REMOVING SUPERFLUOUS HAIR.

No woman who has any sense of beauty will deny that superfluous hair is one of the greatest drawbacks to good looks.

Realising this, women of all times have put themselves to any expense, and have endured considerable pain and discomfort in order to rid themselves of this great disfigurement.

Nowadays electrolysis is a prevalent "cure" for this evil, but in reality this process involves a great deal of unnecessary expense, waste of time and pain.

The simplest quickest, and most effective treatment can easily be carried out by any sufferer, in the privacy of her home. This is the recipe:

Procure about 1 oz. powdered pheminol from your chemist; mix a sufficient quantity with a few drops of water into a stiff paste. Apply this carefuly and thoroughly to the hair you wish to remove, and allow the paste to dry. In a few minutes it can be gently scraped away. The skin is left absolutely free from hair, and should then be carefully washed in warm water, and if desired, lightly dusted with a little talcum powder. (Advt.)

Dominion Status Urged For Korea

(China Press Service)

Washington, Sept. 6.—The Washington Post in an editorial says that Japan is making a consistent effort to better the condition of Koreans, adding that as the birthrate of the Koreans is greater than Japan's, the Koreans can't be absorbed and they should eventually re-establish their own political destinies.

The present protectorate over the ancient empire may be considered as a passing phase, it says; the next is likely to be dominion status within the Japanese Empire, with real self-government provided "Japan has the political imagination to take that logical step in the heat of the present resentment."

Mr. Joseph is prepared to lease it to the Government at a nominal rent on condition that the hospital is maintained and carried on as hitherto. The offer has been accepted.

It was Mr. Joseph's wish to make over the property absolutely to the Colony but in view of the fact that the proposed nursing home and Kowloon Hospital will be available in a few years it has been decided by agreement with Mr. Joseph that he should have the opportunity of later reconsidering the form which his gift to the Colony should take.

Just Between Ourselves

(No. 19 of a series)

"My wife objects to life insurance."

"THAT is rather unusual. Women are the best friends of life insurance, because the protection and guarantee of their happiness and welfare that it affords prompts men to turn to life insurance. Your wife may object because of her unselfishness, but when she hears the whole story and sees that the insurance benefits you as well, probably she will not object.

"LOTS of women object to life insurance for the simple reason that they hate to face the situation of getting along by themselves. But is that any reason why *you* shouldn't face it?

"BECAUSE your wife is willing to risk leaving your family in distress, you are not justified in doing so."

Judge Lobingier Overrules American Consul's Decision And Orders Hannig Freed

(Continued from Page 1)

1922, no formal signed complaint was lodged with the Consular Court at Tientsin in that the said complaint is unsigned by the complainant, Ho Yue Kung. That without a legal and proper complaint or information no proceedings could be properly heard in the United States Consular Court at Tientsin.

That the warrant in the said Criminal Action No. 22 is incomplete in that it is not stated on the Marshal's return at what place or time the said warrant was served on the said Charles W. Hannigs.

That the said documents are certified as true copies of the original documents in the aforesaid action.

That the judgment dated January 20, 1922, of the United States Consular Court at Tientsin, Stuart J. Fuller, Esq., acting judicially wherein the said Charles W. Hannigs was sentenced to 45 days' in jail is contrary to law as aforesaid, the said Court having no jurisdiction to render the said judgment (21 Cyc. 279).

That the judgment dated January 20, 1922, of the United States Consular Court at Tientsin, Stuart J. Fuller, Esq., acting judicially wherein the said sentence of 45 days' imprisonment was suspended is contrary to the law in force in this jurisdiction in that the said Court had no authority to suspend sentence.

That the judgment dated January 20, 1922, of the United States Consular Court at Tientsin, Stuart J. Fuller, Esq., acting judicially wherein the said Charles W. Hannigs was fined $25 United States currency is contrary to law in that the said Consular Court at Tientsin had no jurisdiction to try the said charge against the said Charles W. Hannigs and had no jurisdiction to fine or imprison the said Charles W. Hannigs as aforesaid."

In reference to the foregoing the United States District Attorney, appearing *de officio* for the Marshal, has filed the following paper:

"Upon reading the records and Defendant's Brief in Support of Petition for Writ of *Habeas Corpus* in the above entitled case, the Government by the United States District Attorney, admits the allegations contained in said Brief, and consents to the granting of the Writ."

The petition was originally presented to the United States Commissioner for China who, as *ex officio* Judge of the Consular Court for the district of Shanghai, has jurisdiction of *habeas corpus* cases within that district, but concurrent with the Judge of this Court before whom the writ was made returnable.

After reciting that the accused "assaulted and battered (*sic*) the complainant as charged" the sentence assailed, a certified copy of which is in evidence, proceeds as follows:

"I sentence said Ch. Hannigs to 45 days in jail, but suspend sentence until January 31, 1922 to enable the accused to make arrangements for leaving China as moved by the attorneys for the defense, and if the defendant leaves China by that time, sentence will continue suspended, otherwis not.

And I adjudge the said Ch. Hannigs, to be fined $25.00 U. S. Currency for said assault and battery."

We are not aware of any statute in force in this jurisdiction which penalises the offense of "assault and battery" under that name; but the Federal Penal Code, which is the primary source of our criminal law here, covers the whole subject of assault which is classified into various grades, the maximum penalty for the lowest of which is a fine of $300, imprisonment for "not more than three months, or both". It will be seen, then, that this lowe maximum exceeds the penalty which may be imposed by a consular court. And it is the maximum penalty which determines jurisdiction. For if a court may not impose the maximum penalty for an offense, it has no jurisdiction to try and sentence for such offense. It follows that the consular court was without jurisdiction to impose the sentence complained of. Now

"Want of jurisdiction over person or subject-matter is always a ground for relief on *habeas corpus*. for if the court has acted without jurisdiction, its judgment or order is absolutely void, even on collateral attack; and at least according to the doctrine of the later cases, in addition to jurisdiction over person and subject-matter, the court must have had jurisdiction to render the particular judgment".

As to the other defects complained of, the certified copies before us confirm petitioner's charge that he was arrested upon an unsigned complaint although it is expressly required that all complaints be signed by the complainant or authenticated by the consul's certificate. But this was not a jurisdictional defect nor was the consular court Marshal's failure to state in his return, the time and place of serving the warrant. Indeed that office was supposed to be abolished, by the act creating this court. But errors and irregularities like these are not grounds for *habeas corpus*.

As to the sentence itself, aside from the character of the offense involved, we do not consider it necessary to notice more than one feature, viz., the provision that "if defendant leaves China by that time (Jan. 31) sentence (of imprisonment) will continue suspended." In effect this was an alternative sentence imprisonment or banishment. But the law gives no authority for such a sentence. On the contrary.

"In all cases, except as herein otherwise provided, the punishment of crime provided for by this title shall be *fine or imprisonment, or both*, at the discretion of the officer who decides the case."

"Fine or imprisonment"—it must be one or both; it cannot be fine and (or) imprisonment plus something else. Moreover banishment of American citizen is a penalty unknown to our law, and contrary to the spirit of our institutions. Even from the United States, only aliens may be deported.

In connection with this application four others are submitted by the same petitioner, from which it appears that he was similarly sentenced in another case and that warrants have been issued in three more upon similar charges. But it also appears that petitioner is not in custody by virtue of any of these and writs may consequently not issue therein. In the case before us petitioner was at one time released on bond but his sureties have meanwhile surrendered him so that he is entitled to the relief sought.

Let the writ issue and the prisoner be discharged.

CHANEY ADMITS GUILT; SENTENCE YET TO BE GIVEN

Pugilist Who Was Arrested Leaving For Manila Offers No Defense

Joe Chaney, lightweight pugilist, who was arrested when he was about to sail for Manila, pleaded guilty yesterday afternoon to five charges of forgery and of obtaining goods by false pretenses before Judge C. S. Lobingier in the United States Court for China. Sentence of the court in connection with the case is yet to be announced.

According to information supplied by the Municipal police Chaney obtained possession of a check book of the American-Oriental bank, property of an employe of the British American Tobacco Company, by which Chaney formerly was employed, and he then used this check book freely to purchase goods at several business establishments and in settling personal accounts, signing in most cases the name of the owner of the check book Most of the goods Chaney obtained from merchants, consisting largely of jewelry, has been recovered.

After he had waived preliminary hearing and had been held for trial in the United States Court for China by U. S. Commissioner N. E. Lurton, who fixed bail in the case at Gold $1,000, Mr. A. Krisel was appointed to defend Chaney as he was without means to employ counsel. The plea of guilty in connection with the five charges was presented to Judge Lobingier yesterday afternoon.

Naturalising Bustards Is Regular Man-Size Job

(Continued from Page 1)

birds of this type that the ornithologist could find no Chinese to accompany him more than two or three miles from the railroad. Chinese boatmen refused to row him across the river into Mongolia at any price.

On one occasion Mr. Park pursued a wounded bustard about two miles from the station and ran into a covey of a dozen bandits. The bird wizard hid behind a hay-stack; the robbers made bulwarks out of their horses. Ammunition crackled for thirty or forty merry rounds; after which the brigands retreated waving a white flag and minus three members of the original roll-call. If they had been armed with rifles instead of revolvers, the baby bustards would have had no chaperon on the journey to America.

"Conditions along the railroad to Harbin are unbelievably bad," Mr. Park said yesterday. "The country is absolutely overrun with discharged and unpaid soldiers who have taken up the career of Robin Hood without the Robin Hood finesse. Forbidden by the Chinese to possess arms and not granted any adequate protection, the Russians along the railroad have been by far the worst sufferers. One Russian section foreman told me that his compound had been raided six times within the last few months. When asked why he did not appeal to the Chinese Authorities, he explained that such appeal was absolutely useless. The Chinese police and soldiers assigned to guard the line merely stand by and watch during an attack by the robbers. Two hundred bandits recently raided the town of Lamadia and a corps of Chinese soldiers stationed only half a mile away didn't even bother to load their guns.

"The day after I left one of the stations, a crowd of outlaws descended on the place and demanded that the old Russian in charge tell where I had gone. When he refused, they beat him severely, broke his arm, and then flogged his son. From the description of the brigands, I believe that they were the same set who later waylaid me on the bustard hunt."

Despite the handicaps of brigands, timid Chinese guides, a bird-dog of over-refined sensibilities, and birds with phenomenally good eye-sight, Mr. Park has returned to Shanghai with a live and flourishing colony of infant bustards. Their usual failure to thrive in captivity is due to unscientific feeding, Mr. Park said. With the proper rations, they pick up weight at the rate of a pound a week and show every tendency to become the general nuisances that healthy birds should. The bird wizard is returning to America in December, in order to plant the young bustards in the State Game Farms of North Dakota, South Dakota, and Nebraska. Bustards formerly throve in England, but were driven out by indiscriminate hunting and modern agricultural implements. The last recorded specimens were seen there in 1835. They have never been observed in America.

Mr. Park is specially anxious that nobody should confuse his savory pets with that similarly named malefactor, the buzzard. There is no neighborliness between them, he says, except in the dictionary.

A little and good

Here you see both sides of me
THERE is a distinguishing feature in the business of the house of HAIG & HAIG. Most Distillers have various brands of varying qualities. HAIG & HAIG have *one brand only*, and they claim (and the public acclaim) that it is the finest that goes from Scotland.
It is a regrettable fact that all retailers have not the same high standard of commercial honesty, and it is known that cheaper brands are sometimes passed on to the public under the label of houses of high repute.
When you see a genuine bottle of HAIG & HAIG Five Stars Scots Whisky it will be the same fine quality in London, in Lucknow, or in Labrador; in the Langham Hotel, in the G.O.H. at Colombo, and in the best Clubs in Cape Town.
Haig & Haig Five Stars Scots Whisky
A second quality Haig & Haig could not be filled into a Haig & Haig bottle because there isn't a second quality.
Haig & Haig is also known easily by the fact that you pay a little extra for it.
Say HAIG & HAIG or you may get a cheaper brand substituted.
On the principle that "a little and good" is better for you, you can be gently stimulated by the use of Haig & Haig at no increased cost

BIG ENROLMENT TAXES CAPACITY OF LOCAL COLLEGE

Shanghai College Students Pouring In For Fall Term

The capacities of Shanghai College, although extended, are to be taxed to the utmost this year, according to present indications, a week before class work begins.

Already many more applicants from girl students have been received than can possibly be accommodated, though no special inducements have been made to co-eds. Members of the faculty have almost all returned from vacation points and things are in readiness for the opening of the Fall term.

The new Science Building, is ready for occupancy in every room, a special additional gift of $5,000 gold having just been received for chemistry apparatus. The building and its equipment will cost up to completion about $100,000 gold, all contributed by an anonymous donor.

The Woman's Building, which will be the largest building on the campus, is well under way, being about two feet above ground level. The $50,000 gold required for this building was also given by a man who does not want his name to be known.

The new academy building has been erected up to the roof, and will be completed in December, when it will meet a much felt need in furnishing dormitory space for the growing number of students. The money for this building, about $60,000 Mex, was appropriated by the Southern Baptist Board.

Mr. Z. Y. Lo, M. A., has just been appointed principal of the Academy, which will now be separated in its organisation from the College department. A few of the College teachers will continue to give class lectures in the Academy, while its students will have the use of some of the college rooms and apparatus. Principal Lo is a graduate of Shanghai College of the Class of 1914, and also a Bachelor of Arts and a Master of Arts of the University of Chicago. He has been associated with Professor E. J. Anderson in his work as Director of Schools of the East China Mission.

Dr. Edwin Poteat who has completed a lecture tour in North, Central and South China, will return to the College to give regular courses in Ethics and Philosophy throughout the year. He also plans to make short week-end trips to nearby towns to address Middle School Students and other audiences.

Other important additions to the College Staff are Mrs. Millar, a prominent church worker in the Southern Baptish Church, and Mr. Herbert Spencer Crolly, formerly a teacher in Y. M. C. A. Middle Schools in Japan, who has also been connected with the photographic division of the air service in the U. S. Army. Both are for the English department. Mr. Robert P. Lu, a graduate of the Colorado School of Mines will teach Mathematics both in the College and Middle School.

The new swimming pool is ready for use, and is a splendid addition to the equipment of the College. It is 75 feet long, 30 feet wide, and 9 feet deep at its deepest part. Soon after the opening of the College a campaign for raising additional funds for the completion of the pool will be inaugurated.

Y. M. C. A. Notes

Mr. F. T. Mao will speak on "the Life of Martin Luther" on Sunday night at 8 o'clock at the Martyrs' Memorial Hall. The lecture will be illustrated with lantern slides.

The entrance examination of the Evening School will take place on Monday evening at 7 o'clock.

"My Impression of the New World" will be the subject of a speech to be given by Mr. L. C. Niu, secretary of the association on Wednesday night at 8 o'clock.

The business men's gym class will open on Friday evening at 5:30 o'clock.

The bible school for men will have its registration on September 20. Class work will begin on the following Wednesday.

After several weeks of repairing, the swimming pool is again available.

The New Royal Cafe, on Brenan Road, announces a new "Cabaret de Luxe," featuring twelve gipsy artists, Miss Tamara Imianpo, soprano, and Miss Mary La Belle, character dancer. The program starts at 10 o'clock nightly.

Nanchang Shops Looted By Troops

(China Press Correspondence)

Nanchang, Sept. 7.—Fifty-three shops looted and countless damage done including the wrecking of the Y. M. C. A. residence is the result of General Tsai Cheng-hsun's troops getting out of hand here today. It is feared that the trouble is not over, but that even more serious outbreaks may result with more unhappy consequences to the people.

The trouble arose through the soldiers' demands for pay. Not able, or unwilling to pay the troops from his private "war chest," General Tsai made a demand on the merchants for $500,000. It was impossible for the merchants to meet this sudden levy, but they did the best they could and finally scraped together $200,000.

This was insufficient to pay the horde of near bandiits that march under Tsai's banner and learning that no more was forthcoming, they threw off the loose bonds of discipline and set out to collect their own wages in their own wild way.

No descrimination was shown, except that the richest shops felt the brunt of the attack.

So far as now known, there has been no loss of life as the soldiers were after goods, not blood. No explanation has been given for the attack on the Y. M. C. A.

SHANGHAI TAKES THIRD GAME OF SERIES AGAINST MARINES BY SCORE OF 9-4

Brings Series To Two Games For Locals To One For Visitors

Shanghai made it two out of three in the series with the Peking Marines yesterday afternoon on the local lot, when they got to the visitors' star twirler, McClaire, for nine hits and as many runs in three innings. Bailey who relieved the unfortunate McClaire held Shanghai hitless and runless in his three innings of the six and a half inning game. Wynn for Shanghai had the visitors held safely until the seventh when three hits were bunched up on him and a second and third run were counted.

The Marines couldn't do a thing with Wynn in the first inning. Shanghai on the other hand started out with nice clean hitting. Bills, Holliday and Scott singled and Kingman walked. Hopkins sacrificed on a fly-out to center. Wall went safe while the Marines were trying to throw Scott out at third. Hoag fanned, Smith singled and Wynn doubled and Bill's infield out ended the inning. Six men counted on five hits for six bases, a walk, a sacrifice and an infield out. Peking did not look strong in that first frame.

In the third the Marines put one over when Gorman singled to Scott, stole second and came in on Wall's bad throw to second. Shanghai however added three more to its score on hits by Hoag, Bills and Scott, coupled with a passed ball by Olsen and two walks. The Marines counted their run in the fourth on Hiltibrandt's single through Bills and Hoag's muff of McClaire's fly to center-right.

Bailey held Shanghai batters safely from the fourth inning on. Only one man reached first on his offerings and he went safe when Bills missed a grounder. The Marines went out in order in the fifth and the sixth innings, but in the seventh, with dark falling they got to Wynn after two were down for two doubles and a single and added two runs to their total.

Hongkong Bowlers Beat Hankow 32 Points To 13

BY "THE SHOT"

Hankow and Hongkong clashed yesterday at the S.L.B.C. on what was probably the keenest rink we have had for the last six weeks. The Hankow team opened the score with a single but immediately ran into rough water when their opponents scored eleven in the next four ends in which was included a six. From this point onwards the Crown Colony contingent were always in the ascendant, their team play approaching perfection. With the score at 19-8 they lay 5 shots at the 13th end when Gray came into the limelight with a daisy, travelling through a narrow port and kissing the jack. Fergusson's second did not alter the head and Gray brought the house down with a "ditto repeato" through the same port to lay on his first wood. At the next head they lay a three, thanks to Owen, but from this point onward Fergusson and Co. had matters all their own way winning by 32 points to 13.

For the winners it would be hard to discriminate as to which player was best, as the whole four hardly ever made a mistake. In the lead, Gerrard was the equal of anything we have in Shanghai. Both Russell and Wallace were putting their woods in the close vicinity of the jack at each roll and as skip Fergusson was invariably adding to the number already counting. On today's exhibition we shall certainly have to be all out to retain our flag in the match.

For the losers Gray in the position of skip had a tremendous task and the saves he brought off from time to time prevented the defeat becoming a debacle. Owen was practically in the same predicament and no blame can be attached to him for the defeat.

Rowland in the lead was woefully week and his failure to be through lost his team many points. "Capt." Crooks was not bowling with confidence and in the next match I am sure we shall see an improvement.

Today's game between Hongkong and Shanghai takes place at Hongkew Park and a splendid contest it should be. The Shanghai side we all know, but the Crown Colony contingent have not yet chosen their team.

France And Germany Near Rapprochement, Belief

(Reuter's Service)

London, Sept. 7.—Have Franco-German relations reached the turning-point? This question is being seriously asked in view of recent signs of an economic rapprochement.

Politico-economic circles in London, Paris and Berlin are keenly discussing the matter, particularly the contract for the supply of enormous quantities of German building material which has just been concluded between one of the Stinnes combines and Marquis de Lubersac on behalf of a French combine, embracing seventy percent of the co-operative organisations engaged in the reconstruction of the French devastated regions.

It is generally recognised that the contract is of the most far-reaching importance, not only because it promises materially to expedite reconstruction but in view of its reaction on French and German national policies.

It is noteworthy that of all men Herr Hugo Stinnes, whose organs have up to the present been very vehement in denouncing concessions to France should be anxious to relieve France's necessities, albeit for a consideration in the shape of a six percent commission on the prices of the material, which, it is calculated, will bring his concern enormous profits.

It is significant that the initiative in the matter seems to have come from France while eminent German industrialists have been invited to visit the devastated area where it is reported they will meet representatives of French industry.

Moreover a French economic journal states that German industrialists have begun conversations with their French colleagues with regard to many businesses, offering participation in German undertakings as part of reparations, while it is reported that the French iron industry has turned over to German industrialists with a view to some kind of co-operation.

Reports from Berlin however suggest that the Germans may demand as a condition of any understanding alleviation of the burdens and pinpricks, arising from the French military occupation of the Rhineland, which has created the deepest resentment and hatred in Germany. Even the Stinnes contract, which will be discussed by the German Committee of Foreign Affairs tomorrow, has evoked considerable opposition in the Reichstag.

British public opinion on the whole is inclined to welcome such contracts as sane attempts to solve the reparations problem and thereby to ease the international situation, assuming that they will not be executed by means of further inflation of German currency.

The danger is pointed out, however, that Germany with her highly organised financial and economic schemes might achieve such economic penetration of France as would menace her political independence and consequently the peace of the world.

Harding Suggests Training Of 100,000 Civilians Annually

(China Press Service)

Washington, Sept. 6.—President Harding in an address to citizens and former soldiers of Camp Meade said today that he favors military training for civilians.

He stated that he would desire to see at least 100,000 citizens trained annually. This he said would not be for prospective or aggressive warfare, but simply to protect peace.

"There is no design on the part of this country," said Harding, "to carry on an armed campaign of any kind. We are concerned only with Peace and the security of Peace."

Exquisite gowns, magnificent scenes, absorbing romance, and a fight that stirs the blood—a picture of real distinction.

Robbing a safe, and surprised by the man she loved! Innocent, too, and yet she couldn't explain.

WEATHER

Hot weather; local thunder in the Valley. Very variable breezes mingled with calms all along the coast.

Fifth Estate Is The Movie

THE four estates, as they are found in modern democracies, may be listed as the executive, including kings, presidents, armies, navies and the like; the legislative, including parliaments, senates, congresses and all other bodies of law makers: the judicial and the press, which operates to express public opinion.

The fifth estate is the movie.

The word movie is the people's word, strong, rich and vivid, much better than such pretentious terms as cinema or photoplay.

The thing itself is especially popular and ought to have a popular word.

It ranks along with the street car and the customs office as being a place of pure democracy. No man is any better than another.

As a rule there is nothing like a rented pew or reserved seat in the movie theater. It is first come first served. The exclusive boxes are usually the worst seats in the house, and the peanut gallery is really a better place to see the show than the bald-headed row.

No other place except Sangamon County Fair or the public school playground has more democracy to the square inch.

It is an interesting phase of the triumph of the commons to see all classes of people all over the world creeping into a common hall for two hours of crepuscular enjoyment.

The movie appeals to the simplest and most universal interests of mankind.

One blessed thing it accomplishes is to relieve us from the plague of literature, and give us human action stripped to the bone.

Attempts have been made by ambitious managers to give themselves airs as producers of superfilms and charge fancy prices. But it is safe to say that in its whole twenty years or so of existence the film world has kept free from snobbery.

The highbrow and art for art's sake gentlemen have not had very good success in this field. The public insists on patronising the film that tells a good story, is full of action and sticks close to the primitive motives of humanity.

In no other realm of theatrical production is it so true that "the play's the thing."

One possibility of the movie which puts it in line with modern ideas is that it is essentially international. France and Italy enjoy Charlie Chaplin. A story from Spain is welcomed by an audience in Shanghai.

So the movie may have an important place in the great movement to reduce the narrowness of nationalisms and to teach the people of all races and tongues that they are essentially brothers of the same blood.

Your Tell-Tale Eyes

Munich Physician Does Uncanny Work On Patients With His Iriscope

BY FITZHUGH MINNIGERODE

Were the sage who once remarked that "the eyes are the mirror of the soul" alive today he might with truth add that they also give a pretty fair reflection of the health and conduct of the possessor. Your eyes are a sure give-away, and from now on it will be difficult to hide your sins. It will be necessary for folk guilty of serious lapses to wear blinders, goggles or smoked glasses. These eye gazers may not be trying to vamp you; the chances are that they are reading the pages of your vice book.

I had heard some marvelous tales concerning Dr. Rudolf Schnabel of Munich and his new iriscope. I did not believe them, but the weight of cumulative evidence was too great to be ignored. An officer who had been shot through the left leg, left arm and right shoulder, and whom I had known quite well, was told by Dr. Schnabel the location and nature of each wound. This officer could not possibly have been known to Dr. Schnabel. He was also given a variety of other information concerning his condition, past and present, most of which tallied with the facts as remembered by the officer.

After I had quizzed a half dozen people, all of whom had visited Dr. Schnabel as skeptics and parted from him convinced, I determined that there was at last a good story in the premises, and, accordingly, made an appointment to have my eyes placed under the iriscope and to bare my past to this man of science.

There is nothing of the clairvoyant or quack or fortune teller about this business. He does not ask a question. If he guesses—as some say—he ought to quit iriscoping and play the stock market or the races, for as a guesser he is in a class by himself. Dr. Schnabel is interested only in your eyes and the story that is stamped in them.

Professor Schnabel is not the first scientist to make a careful study of the human eye with the idea that it reflects the condition of the body. Scientists have been following and noting the changes in the iris for a number of years and in several countries. A Swiss doctor published a book on the same subject some years ago, but it seems that he only touched the subject lightly. Dr. Schnabel has been pursuing the study of the human eye for twenty years. He has examined the eyes of many thousand people. In hundreds of cases he has noted all the little marks which tell the tale of past sicknesses and injuries and the indelible marks which the iris registers as a result. He has taken hundreds of really remarkable photographs, greatly magnified, of the human eye, and by a comparison of the plainly discernable marks he can point out to any layman the scars—minute as they are—that mark the similarity of diseases or injuries in the different subjects. Dr. Schnabel has already published one book on the result of his researches, and this exposition has been so well received by the medical profession in Germany that the author has been asked to lecture in many places and to distinguished audiences. The day I visited him he was leaving for Leipsic to address a gathering of scientific men at the university there.

A LABORATORY ORDEAL

Back to the iriscope and my own eyes under its powerful light! Dr. Schnabel doesn't talk to you and you have no inclination to entertain him with airy persiflage. It is a serious business and rather trying. The strong light in the eyes causes you to weep a bit and when the light is finally lifted and the doctor begins to note all the defects, past and present with an inkling of the future thrown in for good measure, and to tell you of the thousand natural shocks that "flesh is heir to" you are apt to weep again.

A matter of fifteen minutes was sufficient for Dr. Schnabel to give my eyes the once over. The examination completed, the doctor draws up a pad and begins to make a record of his discoveries. While this record is being made all is as silent as the tomb, and you feel a little fidgity; you are not sure that the man hasn't looked into the innermost recesses of your soul and conscience. If I felt a bit uneasy, imagine the feelings of those whose deportment through life had been not quite so exemplary! Dr. Schnabel's laboratory is no place for a lot of boys and girls, old men and old maids that I know.

The doctor's first announcement was not at all cheering. In fact, I made a mental reservation that his diagnosis on count one was wrong—entirely wrong.

"You show," he announced slowly, "a very marked fondness for alcohol. This is not confined to recent date, but has extended over a period of many years."

"Doctor," I replied, as firmly as I could, "it is against the law in my country to use alcohol and I have been in Europe but a short time. Perhaps it is the effect of the light on my eyes that gives you that impression."

There was no thought of concealment in my answer. I had had only a few shots of Scotch before approaching this ordeal and I was a little put out that this stranger should have discovered something my wife had not learned in ten years.

The doctor replied:

"You are a habitual user of alcohol."

That settled the first count. What use was there in arguing with a man that refused to be convinced? I thought of the toast: "The light that lies in woman's eyes and lies and lies and lies." I don't think the doctor understood the word "habitual" as we do in America or else he was utterly ignorant of the bootlegger's prices in New York.

SOME UNCANNY PERCEPTIONS

"Within the last two years," he continued, "you have been injured in the neck or had an operation on your throat."

(He was quite right. Ten months before I had had my tonsils removed and subsequently Frank Lawrenson hit me in the neck in a game of "red dog" at Forest Hills).

"The mark which indicates that some of your ribs were broken is old and may have happened as long ago as fifteen years."

(Check again. A race horse chucked me into a pine tree at Del Monte in 1909 and broke a pair of ribs).

"The next mark is very indistinct, but it indicates that you received a severe blow on the head, perhaps in your early youth."

(I fell two stories through a hatchway in Alexandria, Va., about twenty-five years ago and landed on my head. Many of my friends have insisted that I never fully recovered, but Dr. Schnabel has eased my mind by telling me how indistinct this blow appears).

"There is a mark which indicates that you have lost a finger, but I see that all of your digits are present. I cannot account for this," mused the doctor.

(I can. General Robert Alexander was driving me to the station in Chattanooga in 1917 and in turning a busy corner in front of a street car he mistook the accelerator for the brake and I managed to wreck a large plate-glass window with one finger unassisted. What was left of the finger was sewed back on and has done very well. My eye thought the finger gone and made a note of it).

"Your shoulder was dislocated, yet I cannot say just when this occurred," continued the doctor.

(I was caught in a barrage of German 210s near Verdun, did a Ty Cobb into a shell hole, and a fat Sergeant came in on top of me, feet foremost, and flipped my shoulder out of joint. Every hobnail in his shoes left a freckle).

But what is the use of continuing? The doctor had my entire medical history right before him, and I was convinced. Many others have been convinced. The iriscope does not stop at sudden injuries. If you have had the measles, mumps, "flu" or any other of the thousand and one things that afflict humanity, it is recorded in your iris and Dr. Schnabel can find it.

If you decide on a trip to Munich and a visit to Dr. Schnabel I strongly advise that you go alone. I love company, and so does misery, but Dr. Schnabel's iriscope room is no place for company. You will find misery there with bells on.

Get out your smoked glasses! The worst discovery of the century has come!

The Week's Market Report

COTTON

In their weekly report on the Shanghai cotton market, Messrs. A. B. Rosenfeld and Son write as follows:

China Cotton: Since writing our last week's report the market has been keeping steady, due principally to the covering of shorts in the early positions. The new crop months have sympathised to some extent but without bringing about any increase in general business, the transactions being principally among professionals.

As to the new crop we think that although we have had a typhoon and little more rain than necessary, still if it clears up within the next fortnight, the results will be more than hopeful.

From the above, it will be seen that whatever views are entertained as to the ultimate course of prices, a conservative policy appears to be desirable for the immediate future. The situation continues to be governed by the progress of the crops, which will be the chief basis for important price changes from now on.

Yarn.—We have had another featureless week in the yarn market, the general tendency slightly downward, but the net result only two taels in favor of the bears. At the close, prices recovered some one tael, due to the shorts covering. In our opinion, as soon as the crops have had the farmer's attention, a brisk revival in trade is looked forward to.

SPUNT'S REPORT

Messrs. J. Spunt and Company write as follows in their weekly report on the cotton market.

China Cotton: We have had another week of small markets and price fluctuations continued within a narrow range with the general tendency toward steadiness.

From reports to hand from the various districts in the cotton belt the damage to the new crop swept over by the recent typhoon may be considered as negligible and that on the whole happy results may be looked forward to provided the desired dry and sunny weather be soon forthcoming, and while anything under or over general expectations would cause sharp temporary fluctuations, the general course of the market for the next month or two will depend on the attitude of spinners both here and in Japan and the farmers as to the marketing of the crop no matter what its size may eventually materialise.

Meanwhile the market will continue to be governed by the daily crop reports which will be ruled by the weather map. Tone of the market, Steady.

HAIRNET

Messrs. Yannoulatos Bros. (China) have received the following report from their Chefoo head office on the hairnet market.

Conditions in the market are as last reported. The demand for double Capnets from America continues. Orders are, however, executed with difficulty as the quality of the stocks available in the market is poor. Fresh supplies are coming in in small quantities.

Market steady.

PONGEE SILK

The China Merchants Pongee Association have received the following report from their Chefoo head office on the pongee Silk market.

Small purchases of Shantungs and Ninghais were reported during the week. A few hundred pieces of Ninghais—30 yds. lengths, of a very poor quality were also booked for shipment to Shanghai. Market otherwise quiet and steady.

Raw Silk (Tussah).—8 cocoons for export. No stocks.

Tussah silk for Making Pongees. —Although stocks are very small signs of weakness were noticed in the tone of the market during the week evidently in consequence of the favorable reports received from Manchuria regarding Autumn crop of cocoons.

Todays pieces for the following principal lines are as follows:

HANKOW MARKET

The British Chamber of Commerce at Hankow state as follows in their weekly circular dated Hankow, August 30.

Par silver rose from 3 ⅜d ready and forward to 35 ⅛d but fell back again to 35 ⅛d ready and forward. New York-London cross rate dropped steadily from 447 ⅝d to 445 ⅝d but recovered today to 446 ¼. The official T. T. rate rose from 3-6 ¼d to 3-6 ⅜d on 28th but dropped back to 3-6 ½d today. 4 m-s credits could be placed during the week down to 3-7 ⅝d but practically no paper came out. Chinese market rates Shanghai Tls. 97.05. Local currency $70.35. Native interest 9 percent. The feature of the market was the rise in the Paris-London cross rate which went up to 59.63 and brought out some speculation. It dropped again however and closed at 57.85.

EXPORT

Very little business is passing. Home prices appear weaker but local tael values remain steady.

SUPER-DURABLE PAINT
FLAT WALL FINISH

A perfect Paint of smooth surface for Interior Wall Coating

The surface obtainable with this paint is smooth and flat, i.e., it is not a grainy, dead, lifeless finish, but of a velvety texture. It dries in a reasonably quick time, so that work can be carried out effectively, yet has the property of remaining open long enough to enable the worker to cover a large surface of wall without making laps or edges.

Excellent results with Super Durable Flat Finish are easily obtained, irrespective of the skill of the user, and an elaborate preparation of the surface is usually quite unnecessary.

Super Durable Flat Finish has been tried on non-absorbent surfaces of all kinds and where distemper and oil paint have proved prone to shell or flake off, it has always adhered. It gives a lasting finish of surprising beauty.

1 Imperial Gallon covers about 130 square yards one coat.

Senator Johnson Wins Re-nomination

(China Press Service)

San Francisco, Sept. 1 (delayed).—Senator Hiram Johnson has been renominated for the Republican nomination for United States Senator from California by an estimated majority of 80,000 over Mr. Charles G. Moore, former president of the 1915 Pan-Pacific Exposition, after one of the most bitter campaigns in the history of the state.

Senator Johnson's re-election over the Democratic candidate is virtually conceeded even by the Democrats, and his return to the United States Senate is expected to make him a candidate again for the Republican nomination for the Presidency in 1924.

Governor William D. Stephens was defeated for renomination by Mr. W. Richardson by approximately 50,000 votes.

Exchange Fluctuations

Asia Banking Corporation

September 8, 1922

Spot Bar silver was up ¼d. and forward ⅛d. in London yesterday. The New York price advanced to 70⅛ cents and the London-New York cross rate declined to 445¾.

The only change in our Official quotations here today was a drop in the Gold Dollar rate to 77 and a rise in the Yen rate to 62¾. Our market in the early part of the morning was inclined to be firm and very much along yesterday's lines.

Business in Sterling at the opening was done at 3-5 15-16 for October-November and 3-6 for December.

Gold Dollars were done at 78 October and 78⅛ for November-December delivery. Owing to the improvement in the Yen cross rate there was a very strong demand for Yen, particularly for near delivery. While small business was done at 61¾ for this month's delivery, later on there were practically no sellers at any price.

The Yen market therefore became very weak and other currencies eased off in sympathy and in the afternoon the market became very weak indeed with speculators strong buyers and with banks continually lowering their selling rates. It is doubtful it at the close there were sellers at current rate for September delivery.

For October, banks were offering to sell Sterling at 3s. 5⅞d. and at 3s. 5⅝d. for November-December. There were sellers of Gold Dollars at 77⅛ for October and 77¼ November-December delivery.

The best sellers of Yen were offering 62⅜ for October and 62¼ for forward delivery. There were buyers of all these currencies at a fraction higher.

In the afternoon Sterling bills could have been placed at 3s. 6⅜d., Gold Dollar bills at 79 and Franc bills at 1020.

India bought a small amount of silver in London yesterday and the market there as well as in New York is reported as steady.
